

MBBS in Philippines for Indian students

HT Live Correspondent
Chandigarh, July 13

AFTER ITS launch in the city, with a veritable set of curriculum across major Philippines universities for MBBS degree in north, HCMI (Healthcare Management International) is all set to expand its operations throughout the country soon. It has been retained as the official representative of the Commission on Higher Education (CHED), Philippines, in India.

While addressing a press conference, Managing Director, HCMI, Singapore, Baljit Singh, said, "The demand supply ratio in India between patients to beds and between students to seats in medicine is grossly inadequate. Philippines is evolving as one of the major countries providing quality medical education to students from other countries".

HCMI offers medical courses equipping students from India with a global

curriculum to serve any nation they chose to. Present among others were Dr Deepak Shishoo Senior Technical Consultant, HCMI and Maj Karnail Singh (retd), Operational Head for north.

HCMI would be arranging for MBBS degrees to the Indian medical students from various universities accredited under CHED, Government of Philippines. The eligibility criteria for the students, who aspire to become a doctor is 50 per cent marks in English, Biological sciences, Physics and Chemistry in Class XII.

Besides this, HCMI would also assist in documentation of bank loans from banks, assistance in processing student visas, counseling in making an informed decision and a step-by-step application process. HCMI, Singapore is a global healthcare recruitment and educational network that functions in US, Canada, Singapore, Philippines and India.
